

**MASTER COPIES**  
**SUNSHINE MATH – SUPERSTARS III**  
**GRADES K - 8, April 1998**

This box contains a camera-ready master copy of the **latest revision of *Sunshine Math -- Superstars III***. A copy is being sent to the elementary mathematics contact in each Florida district. A separate memo of explanation is also being sent to the district superintendent with a copy to the mathematics contact(s).

Please note that the “Acknowledgments” page in each document provides permission to duplicate for non-profit educational purposes and information about district responsibilities regarding copies for private and home schools.

Many Florida districts have used the Superstars program in their schools for years. If the program has not been used in your district, please take this opportunity to read the introductory information regarding this voluntary program. The problems are challenging; they address all strands included in the Sunshine State Standards, and they enhance the higher-order thinking skills that help students succeed in problem solving and with assessments such as the Florida Comprehensive Assessment Test (FCAT).

For your copying convenience, this box contains packets for grades K-8 as follows:

Mercury	Kindergarten	48 pages
Venus	Grade 1	93 pages
Earth	Grade 2	93 pages
Mars	Grade 3	92 pages
Jupiter	Grade 4	92 pages
Saturn	Grade 5	98 pages
Uranus	Grade 6	98 pages
Neptune	Grade 7	98 pages
Pluto	Grade 8	98 pages
<b>Total</b>		<b>810 pages</b>

The grade levels are divided by colored sheets. The first page of each grade level section is a front cover, and the last page is a back cover.

Please spot check these documents to be sure of the print quality. Contact the Curriculum Services office if there are printing problems.
